“I have grown not only as a public speaker, but also as a person.” At the tender age of 11, Grace admits she had often felt insecure and sometimes suffered from extreme anxiety.

Through the Y’s Model United Nations (MUN), Grace gained public speaking skills representing a country’s position on different topics. She learned everyone has valuable insights and the right to express them — including her own.

This past year Grace was inspired by friends and ran for office. Although she did not win, she gained a new level of confidence and realized it is not about the destination, but the journey. And that is what Y programs offer — a journey to find who you are.

She is grateful for the program’s passionate, culturally-broadening, supportive, and nonjudgmental atmosphere, as well as the generous donors who made it possible for her to participate.

The Torrance–South Bay YMCA empowers the community of Torrance and the South Bay to learn, grow, and thrive every day.

Lasting personal and social change comes about when we all work together. Every day, we partner with our neighbors to enable kids to realize their potential, prepare teens for college, offer families opportunities to have fun together, foster volunteerism and service to others, and encourage people to be healthier in spirit, mind, and body.

100% of your tax-deductible donation makes our community stronger through Y programs focused on youth development, healthy living, and social responsibility.
